

General Orientation to OSCE exam was good

Section 2: Comments:

Course Strength and interesting part:

- All things were good, but examination part is very helpful.
- Informative, conducive, level of expertise of the instruction.
 - Each facilitators has unique style of teaching
- Highlight strength and weakness of our consultation
- Focus on improve our nervousness and anxiety for time management
- Friendly environment
- Small groups practice is very beneficial with simulated patient.
- Give a good idea about the role of family medicine doctors.

Take home message:

- Holistic approach, ICE and patient oriented
- To focus, compose and remember the things need to be done. Focus listening, examination and treatment.
- Feeling more confident
- To do practice, practice and more practice
